## **Advances in Oxytocin Research: Proceedings of a Symposium Held on 1st May 1964 Under the Auspices of the Blair-Bell Research Society at the Royal College ... Sussex Place, Regent's Park, London, England**

Advances in Oxytocin Research documents the proceedings of a symposium held by the Blair-Bell Research Society at the Royal College of Obstetricians and Gynecologists, London, England, on 1st May 1964.

Oxytocin was chosen as the subject of the symposium due to recent important work on its physiology and pharmacology, and the availability of a new method of administering the drug for the induction of labor in women after extensive study in America, Europe, and Great Britain.

The volume contains papers presented by during the two sessions held during the symposium. The first session on the physiology and pharmacology of oxytocin includes studies on the circulatory effects of oxytocin, release of oxytocin during parturition, and the release of oxytocin in domestic animals. The second session on clinical applications includes papers on the endocrine control of labour, clinical trials of buccal oxytocin, and tge oxytocin sensitivity test. Also included are the opening remarks by Sir Arthur Bell, President of the Blair-Bell Society and the Chairman's Introduction at the beginning of each session.
