The Basics of Geomorphology: Key Concepts Kenneth J. Gregory, John Lewin

"I can think of no better guides than Professors Ken Gregory and John Lewin to lead the reader through the conceptual basis of this exciting science."

- *Victor R. Baker, University of Arizona*

"A very readable and informative introduction to the discipline for senior undergraduates, postgraduates and researchers."

- *Angela Gurnell, Queen Mary University of London*

"Time will tell, but this book may well mark a turning point in the way students and scientists alike perceive Earth surface processes and landforms."

- *Jonathan Phillips, University of Kentucky*

This student focused book provides a detailed description and analysis of the key concepts, ideas, and hypotheses that inform geomorphology.

Kenneth Gregory and John Lewin explain the basics of landform science in 20 concepts, each the subject of a substantive, cross-referenced entry. They use the idea of the 'geomorphic system' to organise entries in four sections, with extensive web resources provided for each:

- **System Contexts:** The Systems Approach / Uniformitarianism / Landform / Form, Process and Materials / Equilibrium / Complexity and Non Linear Dynamical Systems
- **System Functioning:** Cycles and cascades / Force-Resistance / Geomorphic work / Process Form Models
- **System Adjustments:** Timescales / Forcings / Change Trajectories / Inheritance and Sensitivity / Anthropocene
- **Drivers for the Future:** Geomorphic Hazards / Geomorphic Engineering / Design and Prediction

Aligned with the teaching literature, this innovative text provides a fully-functioning learning environment for study, revision, and even self-directed research for both undergraduate and postgraduate students of geomorphology.

From reader reviews:

Allison Price:

The feeling that you get from The Basics of Geomorphology: Key Concepts could be the more deep you looking the information that hide within the words the more you get considering reading it. It doesn't mean that this book is hard to comprehend but The Basics of Geomorphology: Key Concepts giving you excitement feeling of reading. The copy writer conveys their point in specific way that can be understood simply by anyone who read this because the author of this e-book is well-known enough. This kind of book also makes your vocabulary increase well. That makes it easy to understand then can go to you, both in printed or e-book style are available. We highly recommend you for having that The Basics of Geomorphology: Key Concepts instantly.

Patricia Watts:

Don't be worry if you are afraid that this book can filled the space in your house, you can have it in e-book approach, more simple and reachable. This The Basics of Geomorphology: Key Concepts can give you a lot of friends because by you checking out this one book you have issue that they don't and make anyone more like an interesting person. This book can be one of one step for you to get success. This book offer you information that probably your friend doesn't recognize, by knowing more than different make you to be great men and women. So , why hesitate? Let me have The Basics of Geomorphology: Key Concepts.

Guadalupe Eggleston:

You can obtain this The Basics of Geomorphology: Key Concepts by go to the bookstore or Mall. Just simply viewing or reviewing it could possibly to be your solve trouble if you get difficulties on your knowledge. Kinds of this reserve are various. Not only by simply written or printed but additionally can you enjoy this book by simply e-book. In the modern era similar to now, you just looking by your mobile phone and searching what their problem. Right now, choose your own personal ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still update. Let's try to choose suitable ways for you.

Elaine Woodring:

What is your hobby? Have you heard this question when you got scholars? We believe that that issue was given by teacher for their students. Many kinds of hobby, Every person has different hobby. And you know that little person just like reading or as reading become their hobby. You must know that reading is very important as well as book as to be the point. Book is important thing to provide you knowledge, except your own personal teacher or lecturer. You see good news or update concerning something by book. Numerous books that can you take to be your object. One of them is The Basics of Geomorphology: Key Concepts.
