# Signal Compression: Coding of Speech, Audio, Text, Image and Video (Selected Topics in Electronics and Systems)

# Signal Compression: Coding of Speech, Audio, Text, Image and Video (Selected Topics in Electronics and Systems)

**Signal Compression: Coding of Speech, Audio, Text, Image and Video (Selected Topics in Electronics and Systems)**

The topic of the proposed book is signal compression. The compression (or low bit rate coding) of speech, audio, image and video signals is a key technology for rapidly emerging opportunities in multimedia products and services.The book contains chapters dedicated to the subtopics of data, speech, audio and visual signal coding, together with an introductory overview chapter on signal compression. The overview article summarizes current capabilities and future trends. The signal-specific chapters that follow focus on the latest technologies and coding standards, while including self-contained introductions to the respective signal domains. The authors of the book chapters are recognized experts in the field of signal processing, compression in particular.Signal compression dealing with both audio and visual signals technology has progressed very rapidly. The proposed book fills a clear void, and should prove to be a valuable reference, both to the practicing professional and to the relatively uninitiated student.

**From reader reviews:**

**Nancy Garcia:**

Do you have favorite book? In case you have, what is your favorite's book? E-book is very important thing for us to learn everything in the world. Each reserve has different aim or maybe goal; it means that guide has different type. Some people really feel enjoy to spend their the perfect time to read a book. They are reading whatever they get because their hobby will be reading a book. What about the person who don't like examining a book? Sometime, person feel need book when they found difficult problem as well as exercise. Well, probably you'll have this Signal Compression: Coding of Speech, Audio, Text, Image and Video (Selected Topics in Electronics and Systems).

**Vera Gates:**

Reading a guide tends to be new life style with this era globalization. With reading you can get a lot of information that may give you benefit in your life. Together with book everyone in this world can share their idea. Textbooks can also inspire a lot of people. A lot of author can inspire their very own reader with their story or their experience. Not only situation that share in the guides. But also they write about the ability about something that you need illustration. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that you can get now. The authors on earth always try to improve their expertise in writing, they also doing some research before they write to their book. One of them is this Signal Compression: Coding of Speech, Audio, Text, Image and Video (Selected Topics in Electronics and Systems).

**Steven Connell:**

People live in this new moment of lifestyle always try and and must have the free time or they will get great deal of stress from both way of life and work. So , whenever we ask do people have free time, we will say absolutely without a doubt. People is human not a robot. Then we request again, what kind of activity are there when the spare time coming to you actually of course your answer can unlimited right. Then do you ever try this one, reading books. It can be your alternative with spending your spare time, the actual book you have read is Signal Compression: Coding of Speech, Audio, Text, Image and Video (Selected Topics in Electronics and Systems).

**Carol Williams:**

Do you have something that that suits you such as book? The publication lovers usually prefer to select book like comic, limited story and the biggest the first is novel. Now, why not trying Signal Compression: Coding of Speech, Audio, Text, Image and Video (Selected Topics in Electronics and Systems) that give your fun preference will be satisfied by reading this book. Reading practice all over the world can be said as the method for people to know world better then how they react to the world. It can't be explained constantly that reading addiction only for the geeky particular person but for all of you who wants to become success

person. So , for every you who want to start reading through as your good habit, you can pick Signal Compression: Coding of Speech, Audio, Text, Image and Video (Selected Topics in Electronics and Systems) become your own personal starter.
