No parent can ever prepare for the death of a child...period. When a child dies, a parent's world is shattered. There are no words, no explanations, no information that can ever make sense out of a child dying before a parent. *Why My Child? A Clinical Guide for Helping Parents Survive the Sudden Death of a Child* provides clinicians, grief counselors, clergy, and other professionals or paraprofessionals a clearer understanding of the unique issues surrounding the parental loss of a child. In addition to helping foster more appropriate clinical interventions and therapeutic support for bereaved parents, *Why My Child?* outlines more realistic expectations for coping with such a life-changing loss. While nothing can take away the pain of losing a child, there are ways of supporting bereaved parents to help make their pain more bearable. As a marriage and family therapist, former clinical director of a mental health department, adjunct professor, and as a parent whose adult child died unexpectedly, I wholeheartedly recommend this powerful book as a much needed tool on the healing journey of grief. Thank you, Stephanie, for contributing your insight, skills, and wisdom to those who are so much in need.
