Bright: Architectural Illumination and Light Projections

Clare Lowther, Sarah de Boer-Schultz

Bright: Architectural Illumination and Light Projections Clare Lowther, Sarah de Boer-Schultz
The use of light and illumination in architecture and design is currently evolving and making an increasingly significant impact on various creative disciplines.

Bright presents a rich selection of innovative projects that are setting trends in the creative use of light. The included work has been implemented in both a commercial and cultural context around the world. Each designer or design company is portrayed in an eight-page spread featuring both stunning photography and detailed text information.

Bright is an up-to-date reference tool for professionals working in the fields of lighting design, architecture and art. The book reflects the role of illumination as a multifaceted and interactive design element. In doing so, Bright sheds new light on the future of architecture and design.
