## **Build Your Own Humanoid Robots : 6 Amazing and Affordable Projects (TAB Robotics) (TAB Electronics) Karl Williams**

This book features great droids, indeed! This unique guide to sophisticated robotics projects brings humanoid robot construction home to the hobbyist. Written by a well-known figure in the robotics community, "Build Your Own Humanoid Robots" provides step-by-step directions for 6 exciting projects, each costing less than \$300. Together, they form the essential ingredients for making your own humanoid robot. If you are serious enough to interest robot professionals, the plans inside offer serious fun to hobbyists. They give you the power to breathe life into a mechanical being with amazingly human qualities, and feature all the instructions you need for programming the inexpensive chips that give your humanoid brains and sensitivity. It features 6 astounding projects: Robotic Arm, Wrist, and Hand - build a versatile robotic arm system to give your humanoid the ability to manipulate objects/ A PIC microcontroller provides motor control and feedback; Personal Computer Interface - learn how to interface the robot arm or any other robotics project to a personal computer for complete control and feedback; Visual Basic Control Software - develop flexible bidirectional communications software to control the robot arm or other projects from your personal computer; Voice Recognition Control - make your robotic arm and walking robot obey your spoken commands with this completely embedded control system that can also be used for many other applications; Expressive, Speaking Face - enable your robot to show happiness, surprise, excitement, anger, and more, as it speaks any words you transmit electronically; and, Bipedal Walking Robot - it's your own amazing small scale, fully autonomous robot! Learn about sensors, analog-to-digital converters, DC motor control, microcontrollers, feedback, and control systems. Also included is the background information regarding construction materials, test equipment, printed circuit board fabrication, microcontrollers, and programming and design considerations needed to create the humanoid robot projects.

### **From reader reviews:**

#### **Eileen Vaughan:**

The reserve untitled Build Your Own Humanoid Robots : 6 Amazing and Affordable Projects (TAB Robotics) (TAB Electronics) is the reserve that recommended to you you just read. You can see the quality of the reserve content that will be shown to you. The language that article author use to explained their way of doing something is easily to understand. The article writer was did a lot of research when write the book, therefore the information that they share for you is absolutely accurate. You also will get the e-book of Build Your Own Humanoid Robots : 6 Amazing and Affordable Projects (TAB Robotics) (TAB Electronics) from the publisher to make you far more enjoy free time.

#### **Nancy Brown:**

The guide with title Build Your Own Humanoid Robots : 6 Amazing and Affordable Projects (TAB Robotics) (TAB Electronics) has lot of information that you can study it. You can get a lot of advantage after read this book. That book exist new understanding the information that exist in this book represented the condition of the world now. That is important to yo7u to find out how the improvement of the world. This book will bring you inside new era of the internationalization. You can read the e-book on your own smart phone, so you can read the item anywhere you want.

#### **Laura Dumas:**

The book Build Your Own Humanoid Robots : 6 Amazing and Affordable Projects (TAB Robotics) (TAB Electronics) has a lot of knowledge on it. So when you read this book you can get a lot of help. The book was written by the very famous author. Mcdougal makes some research prior to write this book. That book very easy to read you can obtain the point easily after reading this article book.

#### **Diana Gum:**

Are you kind of stressful person, only have 10 or perhaps 15 minute in your day to upgrading your mind ability or thinking skill even analytical thinking? Then you have problem with the book than can satisfy your short time to read it because pretty much everything time you only find book that need more time to be go through. Build Your Own Humanoid Robots : 6 Amazing and Affordable Projects (TAB Robotics) (TAB Electronics) can be your answer since it can be read by anyone who have those short time problems.
