Since publication of the fourth edition of **Labor Relations in the Public Sector**, public sector unions have encountered strong headwinds in many parts of the U.S. Membership is falling in some jurisdictions, public opinion has shifted against the unions, and political forces are leaning against them. Retaining the structure that made the previous editions so popular, this fifth edition incorporates a complete round of updates, particularly sections on recent trends in membership figures, new legislation, and new politics as they influence bargaining rights.
