Behemoth or The Long Parliament

Thomas Hobbes

Behemoth or The Long Parliament Thomas Hobbes

Behemoth, or The Long Parliament is essential to any reader interested in the historical context of the thought of Thomas Hobbes (1588-1679). In *De Cive* (1642) and *Leviathan* (1651), the great political philosopher had developed an analytical framework for discussing sedition, rebellion, and the breakdown of authority. *Behemoth*, completed around 1668 and not published until after Hobbes's death, represents the systematic application of this framework to the English Civil War.

In his insightful and substantial Introduction, Stephen Holmes examines the major themes and implications of *Behemoth* in Hobbes's system of thought. Holmes notes that a fresh consideration of *Behemoth* dispels persistent misreadings of Hobbes, including the idea that man is motivated solely by a desire for self-preservation. *Behemoth*, which is cast as a series of dialogues between a teacher and his pupil, locates the principal cause of the Civil War less in economic interests than in the stubborn irrationality of key actors. It also shows more vividly than any of Hobbes's other works the importance of religion in his theories of human nature and behavior.
