Chemistry in the kitchen? Phineas L. MacGuire applies his science skills to culinary creations in this food-tastic tale from the bestselling author of *Chicken Boy*.

Phineas L. MacGuire—scientist extraordinaire—has a new chore: cooking dinner every night. He may be a genius, but he knows nothing about following a recipe. A pinch? A dash? A smidge? This doesn't seem very scientific. A pound of spaghetti? Salt on brownies? Lemon in biscuits? Why, these recipes look a little funky. But he'd better learn quickly if he and his friends are going to win the \$10,000 Bake-Off prize. And to complicate matters, school bully Evan Forbes has taken a liking to Phineas's brownies...too much of a liking. As in, if Phineas can't make Evan enough brownies, he'll get clobbered for sure. Fortunately for Phineas, he has the help of his friends, and even better, he soon discovers that cooking actually *is* kind of like chemistry. So the whole recipe thing might just work out—as long as he can keep his cool in the kitchen.
