The Borderline Personality: Vision and Healing Nathan Scwartz-Salant

This book offers insights into the inner life of the so-called borderline patient that are unparalleled in the psychoanalytic or Jungian literature. Its grasp of the deep anxieties selfhood poses for the deeply wounded person is thoroughly clinical in its relevance to treatment and yet almost religious in its respect for the soul-struggle of the individual caught in this painful syndrome. Dr. Salant's empathy lifts his work into a class entirely by itself, as the text to which most psychotherapists will turn when they want to understand some of their most difficult patients from the inside.
