Baby-Led Weaning: The Essential Guide to Introducing Solid Foods-and Helping Your Baby to Grow Up a Happy and Confident Eater Gill Rapley, Tracey Murkett

The Natural, No-Fuss, No-Purée Method for Starting Your Baby on Solid Foods

“[Baby-Led Weaning] makes life so much easier.” —*The Times*, London

Baby-Led Weaning explodes the myth that babies need to be spoon-fed and shows why self-feeding from the start of the weaning process is the healthiest way for your child to develop. With baby-led weaning (BLW, for short), you can skip purées and make the transition to solid food by following your baby’s cues.

At about six months, most babies are ready to join the family at the kitchen table and discover food for themselves. *Baby-Led Weaning* is the definitive guide to this crucial period in your child’s development, and shows you how to help your baby:

- Participate in family meals right from the start
- Experiment with food at his or her own pace
- Develop new abilities, including hand-eye coordination and chewing
- Learn to love a variety of foods and to enjoy mealtimes

Baby-led weaning became a parenting phenomenon in the UK practically overnight, inspiring a fast-growing and now international online community of parents who practice baby-led weaning—with blogs and pictures to prove it! In *Baby-Led Weaning*, world-leading BLW authority Gill Rapley and early BLW practitioner and coauthor Tracey Murkett deliver everything you need to know about raising healthy, confident eaters.
